

US companies aiming for a cleaner future

Despite common misconception, US companies are committed and are actively contributing to the goals of the Paris Agreement

US firms make up the biggest national group taking action on climate change.

According to CDP, Carbon Disclosure Project 2016

Creating a cleaner future

WILL REQUIRE A TEAM EFFORT

AmCham EU members representing a range of sectors are committed to sustainable finance and the transition to a low-carbon economy:

Banks, insurance & financial companies

Energy companies

Transport companies

That's why AmCham EU created its Sustainable Finance Task Force in early 2018.

This diverse group brings together our members to find common positions and give practical input on policy planning in this field.

OUR KEY PRINCIPLES FOR THE TRANSITION

1

Safeguard financial stability

by avoiding unnecessary risks

2

Draw on the breadth of industry experience and best practices

to create effective policies

3

Maintain a level playing field

with equal access for third-country investors and companies
